| 1  | periodically see brush fires in yards. Could use some more restrictions as the fires are close up to woods and were rather large. Could have gotten out of control easily.  | 9/1/2015 2:44 PM   |
| 2  | need more info to make an informed decision   | 9/1/2015 2:37 PM   |
| 3  | Its pretty obvious in the area that we have a lot of hazards  | 9/1/2015 2:04 PM   |
| 4  | the response time is great. There have been fires in my neighborhood and they were controlled before our homes were damaged   | 9/1/2015 1:48 PM   |
| 5  | I know we have dealt with large wildfires in the past- therefore I am glad you are working for LLBO & fo other aspects in protecting us/community   | 9/1/2015 1:25 PM   |
| 6  | I do believe so but sometimes the kids in the area or other area will mess with fire, They set a house on fire.   | 9/1/2015 1:17 PM   |
| 7  | The dry year has caused a concern.  | 9/1/2015 12:57 PM  |
| 8  | Feel like some nearby residents don't use enough caution when burning campfires.  | 9/1/2015 12:42 PM  |
| 9  | Have more natural burns or even prescribed burns in the spring for berries, grass etc. The old people used to say that's how everything renewed and grew stronger.  | 8/31/2015 2:04 PM  |
| 10 | high concentration of fuel loading; remote communities; and widespread loss of consciousness, believing the Mn DNR can effectively protect a small outland area like our reservation with no tax base.  | 8/15/2015 8:21 PM  |
| 11 | I called the fire department once on a trailer fire near Lake Andrusia just off the power dam rode. The dispatcher had a hard time getting information from me as to which fire department should be dispatched. All's I could tell her was where it was. I don't know who's jurisdiction that falls in. I also live on the Power Dam Rd. I would have no idea either. This was about 10 years ago, the problem hopefully has been alleviated by now. | 8/14/2015 10:03 AM |
| 12 | Fields and trees in Prescott. Are there fire hydrants in the Prescott community? I never noticed them before.   | 7/30/2015 8:56 AM  |
| 13 | we could possibly be trapped in our community if something like that happened   | 7/29/2015 2:01 PM  |
| 14 | I think being prepared for wildfires is very important.   | 7/27/2015 9:30 AM  |
| 15 | Fires concern me mostly and Walker fire is volunteer and will take the fire fighters at least 10 to 12 minutes to arrive on scene   | 7/27/2015 4:19 AM  |
| 16 | ALL THE DOWN TREES. THERE IS ALOT OF DEBRIS AND THE ILLEGAL DUMP SITE. ALSO THE EASTBANK ROAD ON HWY2 BEFORE MISSISSIPPI BRIDGE. THERE'S A TON OF TREES AND LEAVE PILES DOWN THERE. IT'S A FIRE JUST WAITING FOR THE RIGHT CONDITIONS.  | 7/24/2015 2:19 PM  |
| 17 | They were suppose to come do controls burns this spring and didn't show up.   | 7/23/2015 10:54 AM |
| 18 | The homeless community is growing every year. They live in the areas surrounding Cass Lake. They keep fires going to cook and for heat. A lot of times these fires are left unattended for a long period of time. Just a matter of time before one gets out of hand to start a wildfire.  | 7/22/2015 1:53 PM  |
| 19 | Ditches aren't mowed often and smokers throw out butts along roadways. Littering needs to be enforced and there still is a lot of downed trees in local national forests.   | 7/22/2015 1:20 PM  |
| 20 | Sure we are protected with the CL Fire Dept. and LL Wildland Firefighters.  | 7/22/2015 11:25 AM |
| 21 | surrounded with trees and blowdown from previous years storms. Seems like any fire would be hard to contain.  | 7/22/2015 10:04 AM |
| 22 | If there was a fire in my community, we do not have access to water other than a water tank that would take at least an hour or more to get to the fire.  | 7/22/2015 9:55 AM  |
| 23 | We have no fire dept. brush and trees close to housing  | 7/22/2015 9:38 AM  |
| 24 | To many kids in the area with not enough recreational activities.   | 7/22/2015 9:30 AM  |

| 25 | 2 junk trailer houses in close proximity to occupied dwellings. If those trailers were to start on fire, the woods and dwellings are certainly of a concern. Families with small children are in danger | 7/22/2015 9:07 AM |
| 26 | Yes and No, there needs to be more fire control measures around housing such as brush removal and other projects.   | 7/22/2015 8:53 AM |
| 27 | We are surrounded by Sumac and a ton of trees   | 7/22/2015 8:43 AM |
| 28 | Clean up the 2012 wind damage   | 7/22/2015 8:41 AM |
| 29 | I think someone should send out an email to band employees notifying them if there is a fire danger higher than usual.  | 7/22/2015 8:31 AM |
| 30 | Mainly fire's created by arson, are my main concerne.   | 7/22/2015 8:07 AM |
| 31 | No water hydrants near Fire- Department 12 miles away.  | 7/21/2015 4:25 PM |
| 32 | If there are any fires, we are dependent on Walker coming to the Onigum area, which is to late by then.   | 7/21/2015 4:15 PM |
| 33 | Don't know what protections are in place.   | 7/21/2015 4:12 PM |
| 34 | Trees too close to 145 Cty RD NW  | 7/21/2015 4:09 PM |
| 35 | I don't know what kind of alarm system is set up if there is a wildfire close to our residence which is very wooded.  | 7/21/2015 4:07 PM |
| 36 | N/A   | 7/21/2015 4:06 PM |
| 37 | There is a lot of dry and dead trees everywhere- I am concerned that this is still a very big hazard.   | 7/14/2015 2:43 PM |

| 7  | Most home heating sources are powered by electricity- from this perspective most homes do not have a independant heating source- where would we go, what could we do to stay warm and survive?   | 9/1/2015 12:30 PM  |
| 8  | For some reason, people were encouraged to give up their woodstoves for fuel oil and propane. This has proved costly for most of us. I believe the winters in the future will be colder and/or snowier, so we need to have the dual heating systems we used to have. The wood back up stove, at least if the lights go out for days, people won't freeze to death.   | 8/31/2015 2:04 PM  |
| 9  | No sheltering plan for tribal community members at all. no back up generators or switching apparatus for electrical power. no transportation plan to move people on short notice. no plan to keep accurate list of band members. no outreach to obtain real data acquisition. lazy lazy lazy. Tra la la...nothing positive will ever happen.   | 8/15/2015 8:21 PM  |
| 10 | Afraid of losing power for a length of time where my pipes freeze. I do not rent and have no home owners insurance - so I would be out water until I could afford it or win the lottery.   | 8/14/2015 10:03 AM |
| 11 | There are several houses in Prescott community area that are out in the open; no trees. The roads are usually one of the last to get plowed.   | 7/30/2015 8:56 AM  |
| 12 | nobody came to see us when we did ask for help   | 7/29/2015 2:01 PM  |
| 13 | think more people should use wood heat plus LLBO should have options available for the community   | 7/27/2015 3:34 PM  |
| 14 | AGAIN DO WE HAVE ANY PRECAUTIONS IN PLACE IN SUCH AN EVENT. IF SO WE NEED TO BE MADE AWARE OF THEM. HAVE A MEETING FOR THE COMMUNITY AND LET THEM KNOW NWHAT THE EMERGENCY PROCEDURES ARE.   | 7/24/2015 2:19 PM  |
| 15 | we never got info or training on our weather alert system in inger.  | 7/23/2015 10:54 AM |
| 16 | There is no designated people to go out and check on residents during or after a storm to make sure they are safe. There are no people designated to cut trees or what ever off the roadways so emergency or designated people can get to residents in remote areas. There is no emergency housing to put people up who may have issues of storm damage to their homes or roadways or even power outages. certain programs with-in the Tribe should be mandated to be on call in such emergencies like nurses, medical providers, social workers, and mental health workers to assist with the emotional and often physical issues that arise from all of a sudden being "homeless." | 7/23/2015 10:06 AM |
| 17 | The power company takes hours to get power up and running again. Had a trailer house and pets froze to death inside.   | 7/22/2015 1:20 PM  |
| 18 | most of the trees are taken close to homes and roadways and I think the trees are helping with wind ,snow and any storm  | 7/22/2015 10:08 AM |
| 19 | Too dependent on electricity and fuel oil for heating source. Not fast enough response from surrounding companies  | 7/22/2015 10:04 AM |
| 20 | my main concern would be families on a limited income, as to whether they would have adequate access to funds to buy heating oil or electricity. The reservation officials do not see what these families or the elderly have to sacrifice to have adequate funds for the heating season.  | 7/22/2015 9:55 AM  |
| 21 | most no longer have secondary fuel source  | 7/22/2015 9:38 AM  |
| 22 | We have a lot of trees to burn if the worst happens.   | 7/22/2015 9:30 AM  |

| 31 | when we get a lot of snow, it takes a long time to get plowed out. If the power goes out, we don't have any back up for heat. we depend on our furnace and burn propane. so when the power is out we go cold until power comes back on, then we get into the pipes freezing. | 7/21/2015 4:15 PM |

| 5  | not really sure about this.  | 9/1/2015 1:17 PM   |
| 6  | We went through this a few years back. Some areas/housing were without power for five days. Coming into town was a hardship/ Community Center would be great place to set up relief station. Cass Lake is a broad area w/many smaller communities.   | 9/1/2015 12:57 PM  |
| 7  | Notification of available resources in the aftermath of a storm is VERY important. Last severe storm a few years ago-notification was terrible.  | 9/1/2015 12:42 PM  |
| 8  | Straight line winds & tornado damage can last for days. I try to keep water on hand if I know its going to storm but if it were over a week I wouldn't be prepared. More education, resources & affordable ways to be prepared would help.   | 8/31/2015 2:04 PM  |

| 15 | We had a straight line wind that knocked trees down and people were stranded in out communities. It took hours and days to get to the people and get trees cut so emergency vehicles could get to the people. We need an emergency prepared program and staff to designate members in the Tribe to be on call in such an emergency. a place to store fresh water and even people like a school or big building, when power outages, floods, or what ever is causing the hardship. We need a place for people to stay. There is no such place with cots, fresh water and food to put people up. | 7/23/2015 10:06 AM |

| 18 | When people lose their homes on Leech Lake, the Tribe may or may not create accommodations for the person who lost their home. You have to be special to the leaders to get help. There should be a team that gets out there and helps the family or person get to a safe place to stay until a new home is built or fixed for them, food, and some amenities should be given such as clothes, pots and pans, bedding. There should be a team that knows how to access these things and assist the families on accessing assist. | 7/23/2015 10:06 AM |

The Tribe needs to have drills on how to handle and respond to any emergency on a huge scale such as pipeline spill or explosion; a truck exploding on the hwy, wind storms, tornadoes and so on.   | 7/23/2015 10:06 AM |
| 18 | At the 4th of July Powwow in Cass Lake a 2 yr old little boy in our family cut the corner of his eye and was bleeding profusely. My 25 yr old son ran to find EMT truck and had to be directed by the Honor Guard to a small ranger with a man sitting in it watching the powwow. My son ran to the little atv and told the EMT what happened and the EMT told my son to go get the little boy and bring him back !!! The EMT got out and stood there as my son ran to get the little boy and bring him back to the EMT that proceeded to watch the powwow. EMT cleaned up the wound and told mother that little boy needed a stitch n sent her off. I assumed that the EMT at any event would go to the wounded and not wait for them to be carried to them. This is not the first time that this has happened at a powwow. It needs to change. | 7/22/2015 1:53 PM  |

| 23 | Drugs and sellers of drugs in housing are able to carry on the activity without consequence. Housing needs to have a "NO" tolerance for such activity. The police need assist and support from the community to carry out the duties of arrest for crimes such as drug dealing. There does need to be a community crime watch program that citizens can do and feel like they are contributing to the safety of their communities. | 7/23/2015 10:06 AM |
| 24 | Police only focusing on the 'wanted' criminals not the ones walking around bullying and harassing the communities..  | 7/22/2015 1:53 PM  |
| 25 | Police are called and they come 20 minutes to an hour later, by that time every thing is over.   | 7/22/2015 10:08 AM |
| 26 | drug dealers living in our community. I have addressed my concerns to Tribal police and nothing never seems to get done, because the person, whom is a non-indian, living on tribal leased land still seems to be doing his business in our community. I have asked tribal council members to get them off the tribal leased land, but they only seem to be concerned if it helps them get elected,                                | 7/22/2015 9:55 AM  |
| 27 | Theft, cooking and selling meth and other drugs to our people. underage drinking,  | 7/22/2015 9:38 AM  |
| 28 | The answer is parent involvement and better rehab services but how do we get that when a majority of parents/people battle their own addictions and continue to be the problem and not the solution. IF we reduce the drug problem we will reduce the crime rate and jail is not the only answer.  | 7/22/2015 9:30 AM  |

I'm tired of paying for high fuel costs. Also, prepare in all areas, our homes, cars, places of work, community centers and we need a chain of command for each community who are responsible and trustworthy. Put it all in a bag and go around to each community and each LLBO Dept. sometimes the employees miss out because they're busy working and by the time they get home, the function is over or they just too tired and just want to go home and relax.. :) | 8/31/2015 2:04 PM  |
